

# DECLARATION OF CONFORMITY

## HACCP

Oud Gastel, 25 februari 2020

The European Regulation (EC) Nr. 852/2004 of the European Parliament stipulates that food business operators are obliged to work with a food safety system in accordance with the HACCP methodology.

Hereby, LUMINAID B.V. as the manufacturer, declares that the principles of the HACCP methodology in the development and production of the following luminaires have been followed:

- Luminaires belonging to the DATALUX.IQ lighting system
- Luminaires belonging to the DATALUX.LT lighting system
- Luminaires belonging to the DATALUX.AC lighting system

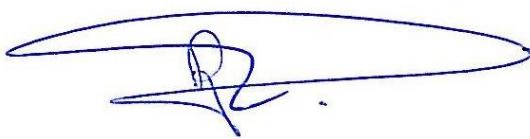

In the development and manufacturing of these luminaires, particular attention has been paid to:

- Round shape preventing dirt accumulation
- Impact resistance (IK10)
- Dust and Waterproofness (IP65)
- Safe use of materials: entire plastic housing without any glass parts
- Highly resistant to cleaning agents

It is to be expected that DATALUX linear lighting systems can be used in the food-processing industry, according to HACCP standards.

Yours sincerely,

LUMINAID B.V.

Dennis Gieselaar
